Management Discussion and Analysis (Unaudited)

January 10, 2022

To the Honorable Mayor and Town Council To the Citizens of the Town of Big Stone Gap

On behalf of the Town Administration for the Town of Big Stone Gap, we offer the readers of the Town's financial statements this narrative overview and analysis of the Town for the fiscal year ended June 30, 2021.

Financial Highlights

- The assets of the Town exceeded its liabilities at the end of the fiscal year by \$23,190,078 (net position). Of this amount, \$567,449 is unrestricted.
- At June 30, 2021, the Town reported combined ending fund balances of \$2,517,471, a decrease of \$159,131 in comparison with the prior year. Approximately 45.04% of this total amount is available for spending at the Town Council's discretion (unassigned fund balance).
- As of June 30, 2021, the General Fund had a total Fund Balance of \$2,517,471.
- The Town of Big Stone Gap's total debt decreased by \$597,893 during the fiscal year. The total debt outstanding as of June 30, 2021 was \$13,295,605.
- As of June 30, 2021, the Town's Legal Debt Margin was \$18,672,222.
- The Water/Sewer Proprietary Fund had a decrease in Net Position for the year of \$214,699.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's financial statements are comprised of three components:

- Government wide financial statements
- Fund financial statements
- Notes to the financial statements

This report also includes other supplementary information in addition to the basic financial statements.

Government-wide financial statements – The Government-wide financial statements are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private sector business.

The statement of net position presents information on all of the Town's assets and liabilities and deferred inflows and outflows of resources, with the difference between them reported as net position. Over time, increases or decreases to net position may serve as a useful indicator as to whether the Town's financial position is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future periods, such as uncollected taxes.

The Government – wide financial statements include not only the Town of Big Stone Gap (primary government), but also its component units:

<u>Fund financial statements</u> – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the Town of Big Stone Gap can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Notes to the financial statements</u> – The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Government – Wide Financial Analysis

Summ	ary of S	tatement of Net p	osition	– June 30, 2021	
	G	overnmental	B	usiness Type	
		Activities		Activities	Total
Current & other assets	\$	6,019,692	\$	3,280,421	\$ 9,300,113
Capital assets		9,296,236		25,884,194	35,180,430
Other noncurrent assets		-		-	-
Deferred Outflows		888,728		391,203	 1,279,931
Total Assets	\$	16,204,656	\$	29,555,818	\$ 45,760,474
Current & other liabilities	\$	3,430,365	\$	1,112,293	\$ 4,542,658
Long-term liabilities		4,106,844		13,701,330	17,808,174
Deferred Inflows		180,050		39,423	 219,473
Total Liabilities	\$	7,717,259	\$	14,853,046	\$ 22,570,305
Net Position:					
Invested in Capital assets					
(Net of related debt)		8,653,682		13,231,143	21,884,825
Restricted		353,371		384,433	737,804
Unrestricted		(519,747)		1,087,196	 567,449
Total Net Position	\$	8,487,306	\$	14,702,772	\$ 23,190,078

Net position serves as a useful indicator of a government's financial position. The Town's combined net position totals \$23,190,078. By far, the largest portion of this represents investments in capital assets, such as land, buildings, machinery, and equipment. Capital assets net of related debt total \$21,884,825. The Town of Big Stone Gap uses these capital assets to provide services to citizens; and thus, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate liabilities. Fund balance includes \$695,040 non-spendable, \$380,862 restricted, \$87,647 committed, \$219,983 assigned, and \$1,133,939 unassigned funds which may be used to meet the Town's ongoing obligations to citizens and creditors.

<u>Governmental Activities</u> – Governmental activities decreased the Town's net position by \$247,517. Key elements of this increase are as follows:

Year Ended June 3		
Revenues:	,	
Program Revenues:		
Charges for Services	\$	458,030
Operating Grants and Contributions		1,296,072
Capital Grants and Contributions		372,706
General Revenues:		
Property Taxes		1,097,295
Other Local Taxes		1,809,940
Unrestricted Intergovernmental Revenue		365,653
Unrestricted Investment Earnings		11,878
Other		191,141
Total Revenues	\$	5,602,715
Expenses:		
General Government	\$	1,140,510
Public Safety		1,715,738
Public Works		1,653,031
Health and Welfare		51,488
Parks, Recreation, Culture		883,945
Community Development		377,316
Interest on Long Term Debt		28,204
Total Expenses	\$	5,850,232
Increase (Decrease) in Net Position	\$	(247,517)

Included in the Total Expenses are non-cash items including depreciation.

Fund Financial Statements

Governmental Funds – The focus of the Town's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. This information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year. The Town's governmental funds include the General Fund and the Special Revenue Funds.

Governmental Fund Highlights:

The largest sources of revenue in the General Fund for the year are as follows:

 2021		2020
\$ 1,086,280	\$	1,020,963
1,809,940		1,685,552
1,877		1,028
9,495		10,642
29,311		26,181
458,030		530,372
28,175		28,460
128,739		139,834
 2,034,431		1,454,854
\$ 5,586,278	\$	4,897,886
	\$ 1,086,280 1,809,940 1,877 9,495 29,311 458,030 28,175 128,739 2,034,431	\$ 1,086,280 \$ 1,809,940 1,877 9,495 29,311 458,030 28,175 128,739 2,034,431

The Town's assessed value of real estate for the year was \$186,722,220. The real estate tax rate is \$0.44 per \$ 100 of assessed value. For the year, the percent of levy collected was 94.20%.

The Town's business type activity is the Water/Sewer Proprietary Fund. During the year, this fund had net income (change in net position) of \$(214,699). Cash and cash equivalents decreased by \$145,213 to \$3,533,917.

The Town's General Fund Final Budget to Actual comparison for the year was as follows:

				Favor	able (Unfav.)
	F	inal Budget	 Actual		Variance
Total Revenues	\$	6,124,342	\$ 5,586,278	\$	(538,064)
Total Expenses		(6,541,803)	(6,189,366)		352,437
Total Other Financing		417,461	 443,957		26,496
Excess of Revenues					
over Expenses	\$	-	\$ (159,131)	\$	(159,131)

Additional information may be obtained by contacting the Town Manager, Mr. Stephen Lawson, or the Town Clerk/Treasurer, Ms. Amanda Hawkins, at the Town of Big Stone Gap offices 276-523-0115.

Independent Auditors' Report

The Honorable Members of the Town Council Town of Big Stone Gap, Virginia Big Stone Gap, VA 24219

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Big Stone Gap, Virginia, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Big Stone Gap, Virginia as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 through 7 and 58, and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The roster of town officials, other supplemental information as listed in the table of contents, statistical section and compliance section information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulation Part 200, Uniform Administrative Requirements, Cost principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The schedule of federal awards and other supplemental information, as listed in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United State of America. In our opinion, these schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The roster of town officials, statistical section and compliance sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2022, on our consideration of the Town of Big Stone Gap's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing on internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Big Stone Gap's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Disclosure of Accounting Policy - For purposes of the statement of cash flows, the water and sewer funds consider all highly liquid investments (including restricted maturity of three months or less) when purchased to be cash equivalents.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Big Stone Gap, Virginia, conform to accounting principles generally accepted in the United States of America as applicable to government units. The following is a summary of the more significant accounting policies:

Reporting Entity

The Town of Big Stone Gap, Virginia is a municipality governed by an elected seven-member council. The reporting entity of the Town has been determined in accordance with accounting principles generally accepted in the United States of America established by the Governmental Accounting Standards Board (GASB) and the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia. In addition, the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates. As required by those principles, these financial statements present the Town of Big Stone Gap, Virginia (the primary government).

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental* activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type* activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, license, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real, and personal property taxes are recorded as revenues and receivable when billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as unavailable revenues. All other revenue items are considered to be measurable and available only when cash is received by the government.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Town reports the following major governmental funds:

The *general fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The American Rescue Plan Act Fund is used to account for funds received under the American Rescue Plan Act.

The Town reports the following major proprietary funds:

The *water operation fund* provides drinking water and maintains the facilities necessary to provide this service. Its primary revenue source is user charges and fees.

The *sewer operation fund* provides maintenance to the sewer lines and pump stations and derives the majority of its revenue through user charges and fees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer Funds are charges to customers for sales and services. The Water and Sewer Funds also recognizes operating revenue for the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgeting and Budgetary Accounting

Budgets are employed by the primary government as a financial control device from the General, Special Revenue, and Proprietary Funds. An annual appropriated budget is legally adopted for the General Fund through ordinances passed by Town Council.

Annual budgets prepared by management are utilized for the Special Revenue and the Proprietary Funds. Therefore, the Special Revenue and Proprietary Funds are not included in the budget and actual comparisons.

For the General Fund, the Town Manager is authorized to transfer budgeted amounts between line items of departments. Revisions that alter the total appropriations for a department must be approved by Town Council. Therefore, the level of control at which expenditures may not exceed appropriations is the total expenditure level of each department. Unencumbered appropriations lapse at year-end.

Encumbrances and Commitments

The Town utilizes encumbrance accounting in its governmental funds. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which a purchase order, contract, or other commitment is issued. Generally, all unencumbered appropriations lapse at year end, except those for capital projects. Appropriations for capital projects are continued until completion of applicable projects, even when projects extend more than one fiscal year. Open encumbrances at fiscal yearend are included in restricted, committed, or assigned fund balance, as appropriate.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

Deposits and Investments

Certificates of Deposit with maturities of three months or greater are recorded on Exhibit 1 under the title Cash and cash equivalents and treated as cash equivalents. No investments existed as of June 30, 2021.

Interfund Receivables and Payables

Activity between the funds is representative of lending/borrowing arrangements outstanding at the end of the fiscal year and are referred to as either "due to/from other funds" (i.e. current portion of inter-fund loans) or "advances to/from other funds" (i.e. the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Capital Assets

Capital assets, which include property, buildings, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statement. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000, and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that does not add to the value of the asset or materially extend lives is not capitalized.

Major outlays for capital assets and improvements are capitalized as the projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current year.

Depreciation for fixed assets has been provided over the following estimated useful lives using the Straight-Line Method:

	All Funds
Water/Sewer System	25
Buildings	40
Improvements other than buildings	25
Infrastructure	30-50
Equipment	3-20

Compensated Absences

The Town has a policy to allow the accumulation and vesting of limited amounts of paid leave and sick leave until termination or retirement. Amounts of such absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds when the amounts are due for payment.

Long-term Debt

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position</u> (Continued)

Long-term Obligations (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the Town is bound to observe constraints imposed upon the use of the resources in the governmental funds. The following classifications describe the relative strength of the spending constraints:

• <u>Nonspendable</u>: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The Town has classified Prepaid Items as being Nonspendable as these items are not expected to be converted to cash or are not expected to be converted to cash within the next year.

• <u>Restricted:</u> This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

• <u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Town Council. These amounts cannot be used for any other purpose unless the Town Council removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

• <u>Assigned:</u> This classification includes amounts that are constrained by the Town's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Town Council or through the Town Council delegating this responsibility to the Town manager through the budgetary process.

•<u>Unassigned</u>: This classification includes the residual fund balance for the General Fund. The Unassigned classification amounts are available for any purpose. Positive Unassigned amounts are reported in the General Fund only. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

Minimum Unassigned Fund Balance Policy

The Town does not maintain an unassigned fund balance policy.

Resource Flow Policy

The Town would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Net Position

Net position is the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is divided into three components:

- Net investment in capital assets- consist of historical cost of capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, constructions, or improvement of those assets.
- Restricted-consist of assets that are restricted by the Town's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on share revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted-all other net position is reported in this category

Deferred Outflows/Inflows of Resources

The Town reports deferred outflows of resources and deferred inflows of resources on its statement of net position. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expense) until the applicable period. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until a future period.

Employer pension and other postemployment benefit (OPEB) contributions made after the net pension liability and net OPEB liability measurement date of June 30, 2020 and prior to the reporting date of June 30, 2021, have been reported as deferred outflows of resources in the Statement of Net Position as of June 30, 2021. This will be applied to the net pension and OPEB liabilities in the next fiscal year.

Differences between the projected and actual pension earnings and OPEB earnings as of the actuarial measurement date of June 30, 2020 have been reported as a deferred outflow of resources. This difference will be recognized in pension expense and OPEB expense over a closed five-year period.

The Town additionally reports unavailable/unearned revenue from property taxes and other receivables not collected within 45 days of year-end and property taxes levied to fund future years. Unavailable/unearned revenue may also represent revenue that has been received, but the earnings process is not yet complete. These amounts are deferred and recognized as an inflow of resources in the period they become available.

Pensions

The Virginia Retirement System (VRS) Political Subdivision Retirement Plan is a multi-employer, agent plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's Retirement Plan and the additions to/deductions from the Town's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position</u> (Continued)

Other Postemployment Benefits (OPEB)

Local Health

The Town's local health insurance OPEB plan is a single employer defined benefit OPEB plan administered by the Town. No assets are accumulated in a trust that meets the criteria under the provisions of Governmental Accounting Standards Board (GASB) Statement 75.

Line of Duty Act Program

The VRS Line of Duty Act Program (LODA) is a multiple employer, cost sharing plan. The LODA Program was established pursuant to §9.1-400 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The LODA Program provides death and health insurance benefits to eligible state employees and local government employees, including volunteers, who die or become disabled as a result of the performance of their duties as a public safety officer. In addition, health insurance benefits are provided to eligible survivors and family members.

For purposes of measuring the LODA Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the LODA Programs OPEB, and LODA Programs OPEB expense, information about the fiduciary net position of the VRS LODA programs OPEB and the additions to/deductions from VRS LODA Programs OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Date of Management Review - Management has evaluated events and transactions occurring subsequent to the statement of net position date for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through the date of the report, which is the date these financial statements were available to be issued.

2. **RECEIVABLES**

Receivables at June 30 are as follows:

	Governmental Activities		Business-Type Activities		
Receivables					
Taxes	\$	344,684	\$	-	
Accounts		51,156		748,339	
Other		111,308		-	
Gross Receivables		507,148		748,339	
Less:					
Allowance for uncollectibles		(159,787)		(306,795)	
Net total receivables	<u>\$</u>	347,361	\$	441,544	

2. **RECEIVABLES** (Continued)

The Town calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$466,582 at June 30, 2021, and is composed of the following:

General Fund:	
Allowance for uncollectible property taxes	\$ 137,111
Allowance for uncollectible garbage fees	 22,676
Total General Fund	 159,787
Water and Sewer Fund:	
Allowance for uncollectible water fee billings	\$ 197,830
Allowance for uncollectible sewer fee billings	 108,965
Total Water and Sewer Fund	\$ 306,795

3. DEPOSITS AND INVESTMENTS

Deposits

All cash of the Town is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 *et seq.* of the *Code of Virginia*, and covered by Federal Deposit Insurance Corporation (FDIC). Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Investment Policy:

In accordance with state statutes, the current investment policy of the Town authorizes investments in obligations of the United States and agencies thereof, commercial paper, repurchase agreements which are collateralized with securities that are approved for direct investment, the Virginia State Non-Arbitrage Program (SNAP) or other authorized Arbitrage Investment Management programs, and the State Treasurer's Local Government Investment Pool (LGIP). Both SNAP and LGIP are not registered with the SEC but are overseen by the Treasurer of Virginia and the State Treasury Board. The fair value of the Town's position in the pools is the same as the value of the pool shares.

Credit Risk:

As required by state statute, the Town requires that commercial paper have a short-term debt rating of no less than "A-1" (or equivalent) from a nationally recognized statistical rating organization.

Concentration of Credit Risk:

Deposits and investments held by any single issuer that exceeded 5% are as follows:

Powell Valley National Bank

97%

3. DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk:

As required by the *Code of Virginia*, all security holdings with maturities over 30 days may not be held in safekeeping with the "counterparty" to the investment transaction. As of June 30, 2021, all of the Town's investments are held in a bank's trust department in the Town's name.

Fair Value Measurements:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Town has measured fair value of the investments below at the net asset value (NAV).

The above items are reflected in the financial statements as follows:

Deposits and investments:

Cash on hand	\$ 600
Deposits	6,207,161
Certificates of deposit	 2,161,609
	\$ 8,369,370
Statement of net position:	
Cash and cash equivalents	\$ 4,177,729
Restricted cash and cash equivalents	4,191,641
	\$ 8,369,370

Restricted cash and cash equivalents consist primarily of certificates of deposit.

4. **PROPERTY TAXES RECEIVABLE**

Property is assessed at its value on January 1st. Property taxes attach as an enforceable lien on property as of January 1st. Taxes are payable on December 5th. The Town of Big Stone Gap bills and collects its own property taxes.

Capital Leases:	·	
\$77,400 capital lease for backhoe loaders with Carter Machinery. Sixty monthly payments of \$1,473.06 from September 25, 2018.		39,701
TOTAL ENTERPRISE FUNDS LONG-TERM DEBT	<u>\$ 9,067,161</u>	<u>\$3,585,890</u>

The Town's outstanding bonds and notes payable for the General Fund are considered general obligation debt and, as such have no collateral obligations related to the debt. The outstanding general obligation bonds related to the business-type activities are considered first to be repaid with revenues from either the Water or Sewer Fund, depending on the origination fund of the debt, and then if those revenues fail to be sufficient to meet the obligation, the debt becomes general obligation debt to be repaid from the tax revenue of the General Fund. The outstanding revenue bonds of the Water and Sewer Fund are to be repaid with revenues from the originating fund of obligation and as such have no collateral obligations related to the debt.

10. FUND BALANCES—GOVERNMENTAL FUNDS

As of June 30, 2021, fund balances are composed of the following:

	Ge	eneral Fund	Total	Governmental Funds
Nonspendable:				
Prepaid items	\$	-	\$	-
Due from internal funds		695,040		695,040
Restricted:				
Law Enforcement		296,143		296,143
Glencoe Cemetery		30,309		30,309
Community Development		54,410		54,410
Committed:				
Law Enforcement		1,665		1,665
Fire Department		48,000		48,000
Public Works		12,382		12,382
Parks and Recreation		25,600		25,600
Cemeteries		-		-
Assigned:				
Law Enforcement		26,365		26,365
Fire Department		15,385		15,385
Public Works		6,706		6,706
Cemeteries		32,800		32,800
Greenbelt		138,727		138,727
Unassigned		1,133,939		1,133,939
Total fund balances	\$	2,517,471	\$	2,517,471

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Town Council or the finance committee has provided otherwise in its commitment or assignment actions.

11. CLAIMS, JUDGEMENTS, AND COMPENSATED ABSENCES

PRIMARY GOVERNMENT

The Town has a policy to allow the accumulation and vesting of limited amounts of paid leave and sick leave until termination or retirement. Amounts of such absences are accrued when incurred in the government-wide and proprietary statements. A liability for these amounts is reported in the governmental funds when the amounts are due for payment.

Town employees earn general leave according to the following schedule:

- (1) Permanent full-time employees with less than five years of service earn 1 1/2 work days per month.
- (2) Permanent full-time employees with five years, but less than ten years of service, earn two work days per month.
- (3) Permanent full-time employees with ten or more years of service earn 2 1/2 work days per month.
- (4) Part-time employees who work 1,000 hours in a given year will earn five days annual leave.

Accumulated general leave is paid upon termination according to the following schedule:

(1) Beginning July 1, 2018, a permanent employee who is separated from the Town service shall be given full pay for his/her accumulated annual leave up to a maximum thirty (30) work days. If an employee dies while in Town service, such terminal leave shall be paid to his/her estate. No terminal leave pay will be paid to persons that are terminated for disciplinary reasons. The accumulated leave maximum of thirty (30) work days reflects a policy change from the prior maximum of ninety (90) work days. At the time of the policy change implementing the maximum leave, the Town agreed that leave in excess of the maximum would banked and payable upon separation of employment as described above; however, those employees would not accrue additional hours above the new maximum limit.

The Town has outstanding accrued general leave pay totaling \$225,565 in the Governmental Activities, and \$134,889 in the Water and Sewer Funds.

12. DEFINED BENEFIT PENSION PLAN

Plan Description

All full-time, salaried permanent employees of the Town are automatically covered by VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

12. DEFINED BENEFIT PENSION PLAN (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2020 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	63
Inactive members:	
Vested inactive members	7
Non-vested Inactive members	16
Inactive members active elsewhere in VRS	25
Total inactive members	48
Active members	59
Total covered employees	170

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Town's contractually required contribution rate for the year ended June 30, 2021 was 19.16% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Town were \$372,709 and \$320,503 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net Pension Liability

The Town's net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For political subdivisions, the net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2019 rolled forward to the measurement date of June 30, 2020.

12. DEFINED BENEFIT PENSION PLAN (Continued)

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Town's retirement plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation	2.5 percent		
Salary increases, including inflation	3.5 percent – 5.35 percent		
Investment rate of return	6.75 percent, net of pension plan investment expense, including inflation*		

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Mortality rates:

General Employees: 15% of deaths are assumed to be service related

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disabled Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled	Update to more current mortality tableRP 2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increase rate from 14% to 20%
Discount Rate	Decrease rate from 7.00% to 6.75%

12. DEFINED BENEFIT PENSION PLAN (Continued)

Actuarial Assumptions -- Public Safety Employees

The total pension liability for Public Safety Employees in the Town's retirement plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation	2.5 percent
Salary increases, including inflation	3.5 percent – 4.75 percent
Investment rate of return	6.75 percent, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Mortality rates:

Hazardous Duty: 45% of deaths are assumed to be service related

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy annuitant Rates at ages 81 and older projected with scale BB to 2020; males 90% of rates; females set forward 1 year.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020: males set forward 1 year, 1.0% increase compounded from ages 70 to 90; females set forward 3 years.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020: males set forward 2 years; unisex using 100% male.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled	Update to more current mortality tableRP 2014 projected to 2020	
Retirement Rates	Increased age 50 rates, and lowered rates at older ages	
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service	
Disability Rates	Adjusted rates to better fit experience	
Salary Scale	No change	
Line of Duty Disability	Decrease rate from 60% to 45%	
Discount Rate	Decrease rate from 7.00% to 6.75%	

TOWN OF BIG STONE GAP, VIRGINIA NOTES TO FINANCIAL STATEMENTS

June 30, 2021

12. DEFINED BENEFIT PENSION PLAN (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension system investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension system investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long- Term Expected Rate of Return	Long-Term Expected Rate of Return
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi - Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
	100.00%		4.64%
Iı	nflation		2.50%
* Expected arithmet	ic nominal return		7.14%

* The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations, provide a median return of 6.81%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2020, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Town using the discount rate of 6.75%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1.00	% Decrease 5.75%	Current Discount 6.75%		1.00% Increase 7.75%	
Net Pension Liability	\$	5,756,495	\$	4,131,917	\$	2,770,082

12. DEFINED BENEFIT PENSION PLAN (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the Town recognized pension expense of \$764,091. At June 30, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ 323,896	\$	1,260
Change in assumptions	65,523		-
Net difference between projected and actual earnings on pension plan investments	417,324		114,506
Employer contributions subsequent to the measurement date	355,436		-
Total	\$ 1,162,179	\$	115,766

\$355,436 reported as deferred outflows of resources related to pensions resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2021	\$ 276,665
2022	209,460
2023	106,235
2024	98,617
2025	-
Thereafter	
	\$ 690,977

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan's is also available in the separately issued VRS 2020 Annual Comprehensive Financial Report (ACFR). A copy of the 2020 VRS ACFR may be downloaded from the VRS website at http://www.varetire.org/, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the Pension Plan

At June 30, 2021, the Town reported a payable of \$0 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2021.

13. OTHER POST-EMPLOYMENT BENEFITS LIABILITY (OPEB)-LOCALITY PLAN

Plan Description

The Town provides post-employment medical coverage for retired employees through a single employer defined benefit plan. The Town may change, add, or delete coverage as they deem appropriate and with the approval of the Town Council. The plan does not grant retirees vested health benefits. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided

A retiree, eligible for post-retirement medical coverage, is defined as a full-time employee who retires directly from the Town with a minimum of twenty (20) years of service. The employee will receive two (2) years of paid health insurance only, or until the employee reaches age 65, whichever comes first.

Employees Covered by Benefit Terms

As of the June 30, 2021 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Active members	55
Retired memebers	4
Total covered employees	59

Total OPEB Liability

The Town's Total OPEB Liability of \$613,903 was measured as of June 30, 2021 and was determined by an actuarial valuation as of June 30, 2020 under the Alternative Measurement Method.

There are no assets accumulated in a trust, therefore, the Net Fiduciary Position is \$0, and the Net OPEB Liability is equal to the Total OPEB Liability.

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50 percent
Salary increases	3.00 percent per year
Discount rate	2.16 percent per year
Healthcare cost trend rates	4.90 percent in year 1, 4.80 percent in year 2, 4.70 percent in year 3 to 4, 4.60 percent in year 5, 4.30 percent thereafter
Retirees' share of benefit- Related costs	100% of projected health insurance premiums for retirees

1

13. OTHER POST-EMPLOYMENT BENEFITS LIABILITY (OPEB)-LOCALITY PLAN (Continued)

The discount was based on the Getzen Trend Model, Milliman's Health Cost Guidelines, and actuarial judgment.

Mortality rates:

Pub-2010 Public Retirement Plans Mortality Tables, with mortality Improvement projected for 10 years

Changes in Total OPEB Liability

	 otal OPEB Liability
Balances at June 30, 2020	\$ 722,309

Net changes	 (108,406)
Balances at June 30, 2021	\$ 613,903

Sensitivity of the Total Pension Liability to Changes in the Discount Rate

The following presents the total pension liability of the Town using the discount rate of 2.21%, as well as what the Town's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.21%) or one percentage point higher (3.21%) than the current rate:

	1.000	1.00% Decrease Current Discount		1.00% Increase		
Total OPEB Liability	\$	677,264	\$	613,903	\$	559,550

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the Town's total OPEB liability using the current healthcare cost trend rates. It also presents what the Town's Total OPEB liability would be if it were calculated using healthcare trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1.00 % Decrease in Trend Rate		Current Trend Rate		1.00% Increase in Trend Rate	
Total OPEB Liability	\$ 543,752		613,903	\$	697,305	

13. OTHER POST-EMPLOYMENT BENEFITS LIABILITY (OPEB)-LOCALITY PLAN (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the Town recognized OPEB expense of \$(108,406). The Town's OPEB plan does not have assets in a trust, therefore, per GASB 75 Paragraph 43 (a) and (b), deferred inflows/outflows are \$0 at June 30, 2021.

14. OTHER POST-EMPLOYMENT BENEFITS LIABILITY-VIRGINIA RETIREMENT SYSTEM PLANS

In addition to their participation in the pension plans offered through the Virginia Retirement System (VRS), the Town of Big Stone Gap also participates in various cost-sharing and agent multi-employer other postemployment benefit plans, described as follows:

Line of Duty Act Program

Plan Descriptions

All paid employees and volunteers in hazardous duty positions in Virginia localities and hazardous duty employees who are covered under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), or the Virginia Law Officers' Retirement System (VaLORS) are automatically covered by the Line of Duty Act Program (LODA). As required by statute, the Virginia Retirement System (the System) is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in FY 2012. The employer contributions are determined by the System's actuary using anticipated program costs and the number of covered individuals associated with all participating employers.

Specific information about the LODA is available at https://www.valoda.org/

Contributions

Contributions to the VRS OPEB programs were based on actuarially determined rates from actuarial valuations as of June 30, 2018. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB programs are as follows:

Governed by:	<i>Code of Virginia</i> 9-1-400.1 and may be impacted as a result of funding provided to governmental agencies by the Virginia General Assembly.
Total rate:	\$717.31 per covered full-time-equivalent employee. Based on pay-as-you-go funding rate.
June 30, 2021 Contribution	\$ 9,325
June 30, 2020 Contribution	\$ 8,469

OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

The net OPEB liabilities were measured as of June 30, 2018 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by actuarial valuations as of that date. The covered employer's proportion of the net OPEB liabilities, LODA proportion was determined based on pay-as-you-go employer contributions instead of actuarially determined contributions.

June 30, 2021 proportionate share of liability	\$ 261,005
June 30, 2020 proportion	0.06310 %
June 30, 2021 proportion	0.06232 %
June 30, 2021 expense	\$ 18,001

14. OTHER POST-EMPLOYMENT BENEFITS LIABILITY-VIRGINIA RETIREMENT SYSTEM PLANS (Continued)

Since there was a change in proportionate share between measurement dates, a portion of the OPEB expense above was related to deferred amount from changes in proportion.

At June 30, 2021, the Town of Big Stone Gap reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources.

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	27,706	\$	35,583
Difference between projected and actual earnings		-		371
Changes in proportionate share		11,704		51,488
Changes in assumptions or other inputs		69,873		16,265
Employer contributions subsequent to the measurement date		8,469		-
Total	\$	117,752	\$	103,707

The deferred outflows of resources related to OPEB resulting from the Town of Big Stone Gap's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30	(Rec to	crease luction) OPEB spense
2021	\$	221
2022		290
2023		363
2024		385
2025		407
Thereafter		3,910
	\$	5,576

14. OTHER POST-EMPLOYMENT BENEFITS LIABILITY-VIRGINIA RETIREMENT SYSTEM PLANS (Continued)

Actuarial Assumptions and Other Inputs Inflation	2.5%
 Salary increases, including inflation: Locality- general employees 	N/A
 Locality – hazardous duty employees 	N/A
Medical cost trend rates:	
• Under age 65	7.00 - 4.75%
• Ages 65 and older	5.375 - 4.75%
Year of ultimate trend rate:	
• Under age 65	Fiscal year ended 2028
• Ages 65 and older	Fiscal year ended 2023
Investment rate of return, net of expenses,	
including inflation*	2.21%

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed percent above. However, since the difference was minimal, and a more conservative investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be the percent noted above to simplify preparation of OPEB liabilities.

Mortality rates used for the various VRS OPEB plans are the same as those used for the actuarial valuations of the VRS pension plans. The mortality rates are discussed in detail at Note 12.

The total liability is calculated by the VRS actuary and each plan's fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

Net OPEB Liabilities

The net OPEB liabilities represent each program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2021, net OPEB liability amounts for the various VRS OPEB programs are as follows (amounts expressed in thousands):

	L	ine of Duty Act Program
Total OPEB Liability	\$	423,147
Plan fiduciary net position		4,333
Employers' net OPEB		
liability (asset)	\$	418,814
Plan fiduciary net position as a percentage of total OPEB liability		1.02%

14. OTHER POST-EMPLOYMENT BENEFITS LIABILITY-VIRGINIA RETIREMENT SYSTEM PLANS (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on LODA OPEB Program's investments was set at 2.21% for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS Pooled Investments' 6.75% assumption. Instead, the assumed annual rate of return of 2.21% was used since it approximates the risk-free rate of return. This Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Bond Buyer General Obligation 20- year Municipal Bond Index as of the measurement date of June 30, 2020.

Discount Rate

The discount rate used to measure the total LODA OPEB liability was 2.21%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made per the VRS Statutes and that they will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2020, the rate contributed by participating employers to the LODA OPEB Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the covered employer's proportionate share of the net LODA OPEB liability using the discount rate of 2.21%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.21%) or one percentage point higher (3.21%) than the current rate:

	1.00	% Decrease	Curr	ent Discount	1.00% Increase		
Net LODA OPEB Liability	\$	309,810	\$	261,005	\$	224,217	

Sensitivity of the LODA Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Because the Line of Duty Act Program (LODA) contains provisions for the payment of health insurance premiums, the liabilities are also impacted by the health care trend rates. The following presents the covered employer's proportionate share of the net LODA OPEB liability using health care trend rate of 7.00% decreasing to 4.75%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a health care trend rate that is one percentage point lower (6.00% decreasing to 3.75%) or one percentage point higher (8.00% decreasing to 5.75%) than the current rate:

	1.00% Decrease		Cur	rent Trend	1.00% Increase		
Net LODA OPEB Liability	\$	215,729	\$	261,005	\$	320,226	

OPEB Plan Fiduciary Net Position

Information about the VRS OPEB plan fiduciary net position is available in the separately issued VRS 2020 Annual Comprehensive Financial Report (ACFR). A copy of the 2019 VRS ACFR may be downloaded from the VRS website at <u>http://www.varetire.org/</u>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

16. DEFERRED PROPERTY TAX REVENUE

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$197,331 is comprised of the following:

Deferred Property Tax Revenue:

Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$197,331 at June 30, 2021.

17. COMMITMENTS AND CONTINGENCIES

Litigation

In regard to litigation involving the Town of Big Stone Gap, Virginia, we are not aware of any material contingent liabilities that could affect the financial statements.

18. **RISK MANAGEMENT**

The Town of Big Stone Gap has a blanket bond with Travelers Insurance through South West Insurance Agency covering all town employees at \$10,000 per employee. The Town has an additional \$1,000,000 policy with Travelers Insurance covering the Town's public officials.

19. ENCUMBRANCES OUTSTANDING

Outstanding encumbrances of the proprietary fund types are not reflected in the accompanying financial statements as a reservation of retained earnings, in keeping with the fund type's measurement focus. However, Encumbrance accounting is employed as an extension of formal budgetary integration for the General Fund. At June 30, 2021, certain amounts which were restricted, committed, or assigned for specific purposes have been encumbered in the governmental funds. Encumbrances included in governmental fund balances are as follows:

	 Enc	1 in:			
	 stricted I Balance	 nmitted Balance	Assigned Fund Balance		
General Fund for Capital Assets	\$ -	\$ -	\$	-	
General Fund for Other Purposes	 	 		46,802	
Total Encumbrances	\$ -	 -	\$	46,802	

20. **DEFICIT UNRESTRICTED NET POSITION**

The Governmental Activities of the Primary Government has a deficit unrestricted net position of \$519,747; however, when considering the net investment in capital assets, while excluding restricted amounts, it has a positive overall net position of \$8,487,306. The water fund have a deficit unrestricted net position of \$1,527,338 at June 30, 2021; however when considering the net investment in capital assets, while excluding restricted amounts, it has a positive overall net position of \$7,103,843.

21. RISK AND UNCERTAINTY

On January 20, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the Town's financial condition, liquidity, and future results of operations. Management is actively monitoring the impact of the global situation on its financial condition, liquidity, operations, supplier, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global response to curb its spread, the Town is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for fiscal year 2022.

22. FUTURE ACCOUNTING PRONOUNCEMENTS

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective:

Statement No. 87, *Leases*, requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, unless the lease is a short-term lease or it transfers ownership of the underlying asset. The requirements of this statement are effective for reporting periods beginning after June 15, 2021.

Statement No. 90, *Majority Equity Interests-An Amendment of GASB Statements No. 14 and No. 61*), defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. The requirements of this statement are effective for reporting periods beginning after December 15, 2020. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

Statement No. 92, *Omnibus* issued in January 2020. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. Certain requirements of this Statement are effective immediately and others for reporting periods beginning after June 15, 2021.

Statement No. 96, *Subscription-based Information Technology Arrangements*, defines a subscription-based information technology arrangement, establishes that the arrangements result in a right-to-use intangible asset and related liability, and provides the capitalization criteria for outlays related to the arrangements, as well as setting requirements for note disclosures regarding these arrangements. The requirements of this statement are effective for reporting periods beginning after June 15, 2022. The requirements of this statement should be applied prospectively.

Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an Amendment of GASB Statements No. 14 and No.84, and a Supersession of GASB Statement No. 32. This statement provides a more consistent financial reporting of defined contribution pension plans, defined contributions OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. Certain requirements of the Statement are effective immediately and other for reporting periods beginning after June 15, 2021.

Management has not determined the effects these new GASB Statements may have on prospective financial statements.

TOWN OF BIG STONE GAP, VIRGINIA REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES-BUDGET AND ACTUAL GENERAL FUND Year Ended June 30, 2021

TOWN OF BIG STONE GAP, VIRGINIA

Notes to Required Supplementary Information (unaudited)

June 30, 2021

Note 1. Change of benefit terms

Pension

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2020 are not material.

Other Postemployment Benefits (OPEB)

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Note 2.

Changes of assumptions - The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period from July 1, 2012, through June 30, 2016, except the change in the discount rate, which was based or VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement	T
healthy, and disabled	Update to more current mortality tableRP 2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increase rate from 14% to 20%
Discount Rate	Decrease rate from 7.00% to 6 75%
Applicable to	Pension, GLI OPEB

Largest 10 -- Non-Hazardous Duty:

All Others (Non 10 Largest) -- Non-Hazardous Duty:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled	Update to more current mortality tableRP 2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increase rate from 14% to 15%
Discount Rate	Decrease rate from 7.00% to 6 75%
Applicable to.	Pension, GLI OPEB

Largest 10 -- Hazardous Duty/Public Safety Employees:

Mortality Rates (Pre-retirement, post-retirement	
healthy, and disabled	Update to more current mortality table RP 2014 projected to 2020
Retirement Rates	Lowered rates at older ages
Withdrawal Rates	Adjusted rates to better fit experience
Disability Rates	Increased rates
Salary Scale	No change

STATISTICAL SECTION

The information in this section is not covered by the Independent Auditor's Report but is presented as supplemental data for the benefit of the readers of the comprehensive annual financial report. The objectives of statistical section information are to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to understand and assess a government's economic condition.

CONTENTS	PAGE
FINANCIAL TRENDS These schedules contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time.	72
REVENUE CAPACITY These schedules contain trend information to help the reader assess the Town's most significant local revenue source, the property tax.	76
DEBT CAPACITY These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.	80
ECONOMIC AND DEMOGRAPHIC INFORMATION These schedules offer economic and demographic indicators to help the reader understand the Environment within which the town's financial activities take place.	83
OPERATING INFORMATION These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.	85

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Members of the Town Council Town of Big Stone Gap, Virginia Big Stone Gap, VA 24219

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Big Stone Gap, Virginia, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town of Big Stone Gap, Virginia's basic financial statements, and have issued our report thereon dated January 10, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the Town's financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Town of Big Stone Gap, Virginia in a separate letter dated January 10, 2022.

Purpose of this Report

ł

1

I

1

1

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide and opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance with Commonwealth of Virginia Laws, Regulations, Contracts, and Grants

The Honorable Members of the Town Council Town of Big Stone Gap, Virginia Big Stone Gap, VA 24219

We have audited the financial statements of the Town of Big Stone Gap, Virginia, as of and for the year ended June 30, 2021, and have issued our report thereon dated January 10, 2022.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audit of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement.

Compliance with Commonwealth of Virginia laws, regulations, contracts, and grants applicable to the Town of Big Stone Gap, Virginia, is the responsibility of the Town's management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the Town of Big Stone Gap's compliance with certain provisions of the Commonwealth of Virginia's laws, regulations, contracts, and grants. However, the objective of our audit of the financial statements was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion.

Following is a summary of the Commonwealth of Virginia's laws, regulations, contracts, and grants for which we performed tests of compliance:

Code of Virginia

- * Budget and Appropriation Laws
- * Cash and Investment Laws
- * Conflicts of Interest
- * Retirement Systems

State Agency Requirements

- * Debt Provisions* Procurement
- * Unclaimed Property
- Highway Maintenance Funds

The results of our tests disclosed no instances of noncompliance with the provisions referred to in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the Town of Big Stone Gap, Virginia, had not complied, in all material respects, with those provisions.

This report is intended solely for the information and use of the Town Council, management, the Auditor of Public Accounts, and applicable state agencies, and is not intended to be, and should not be, used by anyone other than these specified parties.

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

The Honorable Members of the Town Council Town of Big Stone Gap Big Stone Gap, VA 24219

Report on Compliance for Each Major Federal Program

We have audited the Town of Big Stone Gap, Virginia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2021. The Town's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on the compliance for each of the Town's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Big Stone Gap's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the Town of Big Stone Gap, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, the Town complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Town of Big Stone Gap is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Big Stone Gap, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TOWN OF BIG STONE GAP NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS Year Ended June 30, 2021

NOTE A-BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) included the federal award activity of the Town of Big Stone Gap under programs of the federal government of the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations*. Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the Town of Big Stone Gap, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Big Stone Gap.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB Circular A-87, Cost Principles for State, Local, and Indian Trihal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement

NOTE C--INDIRECT COST RATE

The Town of Big Stone Gap has elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance

TOWN OF BIG STONE GAP SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2021
